### Purpose

To advise all exporters of all live animal and reproductive materials commodities that new fees will apply from 1 July 2014.

### Background

The Department of Agriculture has completed a review of fees and charges for its live animal export cost recovery arrangement. Fees under the live animal export cost recovery arrangement have not been adjusted since 2009 and the arrangement has not been fully recovered since 2010. In the current budgetary environment this cannot be sustained.

The new fees schedule effective 1 July 2014 is provided at **Attachment A** (below). There are no changes to how the fees are imposed and collected.
